Alabama Hen Is World Champion Egg Producer, and of the previous margination by the state Department of Agriculture States Department of Agriculture States Department of Agricultural Economics of the United States Department of Agriculture States Department of Agricultural Economics of the United States Department of Agricultural Economics of the United States Department of Agricultural Economics of the United States Department of Agricultural States Department of President-Amy Moore.

Lady Peacock is an Alabama bird. She was bred and is owned by Dr. H. B. Peacock, of Opelika. The new champion is 18 months old and began laying in a few days before entering the contest a year ago.

Six Times Body Weight Her weight at the close of the year was 6.9 pounds, which is close to standard weight for Rhode Island Reds of her age. The 345 land Reds of her age age. The 345 land Reds of her age age. The 345 land Reds of her age age. The 345 land

land Reds of her age. The 345 state Department of Agriculture ggs which she laid during the year weigh more than six times her Sundays.

During the 365 days she failed to score only 20 days, which means that she worked more than half of her Sundays.

Lady Peacock comes of a family of high producers of eggs. Her Lady Peacock comes of a family of high producers of eggs. Her sire's dam produced 296 eggs in a calendar year at the Western Washington egg-laying contest in 1924-25, and her dam produced 304 eggs in the Alabama national egg-laying contest last year.

The 1,000 hens in the Auburn contest were divided into pens of 10 birds, and in the pen with Lady Peacock were three of her sisters. One of them laid 294 eggs and and the cotton acreage adjustment under present conditions should be much greater than under normal size of eggs. Her size dam produced 296 eggs in a calendar year at the Western Washington egg-laying contest in other cotton-producing states be requested to adopt and make practical application of these principles in order that the cotton structure of the entire South may be placed on a sound and safe basis. All should recognize and heed the fact that the cotton acreage adjustment under present conditions should be much greater than under normal size donds.

Rature Thought of
Everything

Nature Hought of everything when the human body was made. When the body is about to become ill, nature planned danger signals to warn us. Thus, if our children grind their teeth they sleep, or lack appetite, or nuffer from abdominal pains, or itch they sleep, or lack appetite, or nuffer from abdominal pains, or itch that they may have contracted worms. Then, if we are wise, we buy about the nose and fingers, we should know that they may have contracted worms. Then, if we are wise, we buy about the nose and fingers, we should know that they may have contracted worms. Then, if we are wise, we buy about the nose and fingers, we should show that they may have contracted worms. Then, if we are wise, we buy about the nose and fingers, we should show that they may have contracted worms. Then, if we are wise, we buy about the nose and fingers, we should show that they may have contracted worms. Then, if we are wise, we buy about the nose and fingers, we should show that they may have contracted worms. Then, if we are wise, we buy about the nose and fingers, we should show that they may have contracted worms. Then, if we are wise, we buy about the nose and fingers, we should show that they may have contracted worms. Then, if we are wise, we buy about the nose and fingers, we should the danger of yery serious for the nation."—Herbert Hoover.
